

Home Page - Dynamic Shell

Notes

The home page will detect browser language settings and will display appropriate language. Users will be able to change language from the footer.

The home page will display the appropriate width, based on responsive guidelines outlined in Appendix C.

Annotations & Interactions

- 1 My Account menu will be suppressed in countries outside of North America. See page 4 for complete functionality.
- 2 Search field will comply with search standards outlined in Appendix B
- 3 Chat will be disabled, but visible until May 2013 when the new social business solution is integrated with customer facing site.
- 4 Blog button will be dynamic based on regional ID. See Appendix F for regionalized content.

Intent Map
